

SignatureGem™ 1x5

Model T-S261

Electronic Signature Capture Pad

SignatureGem 1x5 is a rugged, portable and complete signature input, capture, and software application system for paperless applications. The compact, durable design is perfect both on a desktop or in the field. With an optional inking cartridge, signed paper records can be offered to customers in addition to the digital document file and signature. Topaz's software suite is bundled at no additional charge for a complete electronic signature solution..
