

REINER 510

Electric Rotary Date/Text Stamp

Quiet, reliable and versatile - the REINER 510 is the best way to speed through post-room and accounts department stamping jobs.

The REINER 510 is especially useful if varying thicknesses of document or voucher set must be marked. (Up to 5mm thickness.)

It's rotating flexographic print mechanism even makes it possible to stamp cardboard, wood and some plastics!

REINER 510

The Versatile Multi-Talent!

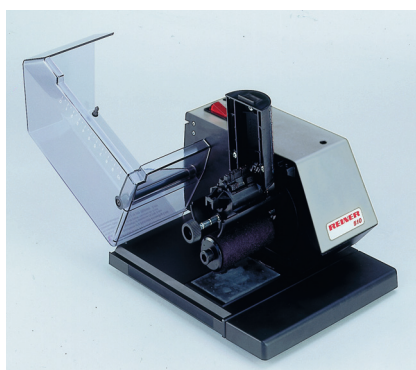

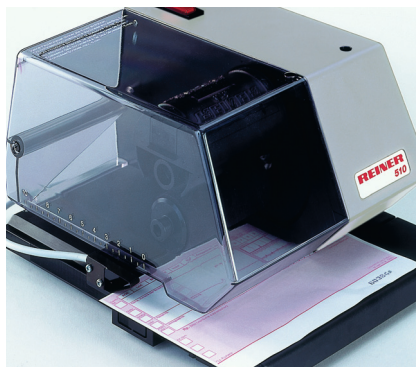

REINER 510

Flexo-Printhead:

- The rubber-band date set and textplate are mounted on the rotary, auto-inked print barrel. Date setting is quick, clean and easy with the dial shaft
- Date 4 mm figure height
- Accepts rubber and polymer dies upto 60 x 35 mm, readily interchangeable
- Complete print barrel easily removed and interchangeable
- With or without date-print
- The text stamp version can easily be converted for date printing
- Auto-inking via a high capacity microporous ink roller, with fast drying, nonsmudge rubber stamp ink
- Ink roller change takes seconds

Use:

- Print position selected visually; limits are indicated on the machine
- Triggered by light pressure on the feed plate; one hand operation is possible
- Adjustable end lay with photo-electric sensor head available on request

Technical

Radio interference suppression, GS-approved, CE-conform

Mains: 220 V, 50 Hz or
115 V, 60 Hz

Consumption: 20 watts

Max. throughput: 100 prints per minute

Noise level: under 60 dBA

Capacity: See illustration

Date setting: By dial shaft

Textplate: Rubber or polymer, easily interchangeable

Inking: By ink roller,
violet, blue, red or black

Cover: Very tough plastic
Colour: grey metallic

Overall measures

B x H x T: 220 x 170 x 125 mm

Weight: 2,4 kg
