

## Feature :

1. Compatible with VIA EPIA PX-10000G I/O.
2. Easy system integration.
3. Low noise and light weight.
4. Solid and stable with quality design.
5. Excellent heat dissipation through extensive sets of vents.
6. Car PC features:
  - a. Car start delay timer
  - b. Key removed delay time
  - c. Hardware shutdown

## Specifications :

|                    |                                                                                                                                                                                                                              |
