

YMCKO-K 6 PANEL COLOR RIBBON

Technical data & Specification

General Specification

Compatibility and printing capacity

Advantages

This ribbon is composed by 6 panels: Yellow, Magenta, Cyan, Black, Overlay and Black. This ribbon is used for double-sided color printing with photo quality resolution for the front of the card and some black resin printing on the back.

- **Type:** Color Ribbon
- **Description:** 6 panels – YMCKO-K
- **Features:** The colour ribbon is polyethylene terephthalate (PET) with thin layer of specialized coating. The concentration of colorant is very low and they are insoluble in water. In the printing process they only diffuse at temperature above 50°C.
- **Storage Information:** It is recommended that this product is used within one year. Avoid dust, direct sunlight, high humidity and high temperatures. Do not place near solvent or other chemicals.

- **P/N R3314:** Dualys³, Quantum² and Securion. Up to 200 prints per roll.
- **P/N R3514:** Quantum². Up to 500 prints per roll.

The Evolis High Trust® YMCKOK ribbons can represent an advantageous cost per card when you need a color printing on the front of the card and some black text or elements on the back.

All ribbons are formulated to produce sharp, bright images and clear text. The protective varnish allows a better lifespan of the card and of your prints.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability. Use Evolis High Trust® ribbons to keep off defects and to benefit from high-quality printouts and at an optimal cost-per-card.

Evolis card printers + Evolis High Trust® consumables = the winning combination!
