

32-CH Rack-Mountable Network Video Recorder

The PLANET NVR-3250 is the Rack-Mount Network Video Recorder designed as 19" 1U standard which optimizes your space utilization by controlling your systems in just 1U space on the rack. It is the new model designed for IP surveillance system; users can just turn on the cameras and the NVR to easily protect their life and property under the IP network. The recorded video files be directly saved in the NVR-3250 and no need of using additional PC for files storage, which brings users a secure surveillance system with lower total cost.

The NVR-3250 provides powerful central surveillance management capability with its bundled Central Management Software (CMS). One NVR-3250 can manage up to 32 IP cameras via a connected IP network. With the bundled CMS, the NVR system is expandable for multi-sites management of up to 1024 channels simultaneously*. With the NVR-3250, users can view remote surveillance in real time and play back recorded videos via the bundled CMS software or the web browser. The multi-monitor and E-Map functions are also provided by the NVR-3250 to help the administrators to monitor the surveillance system more efficiently.

The NVR-3250 not only supports PLANET IP cameras but also is compatible with most of major IP camera brands in the market. Furthermore, the NVR-3250 can automatically search and find the available cameras in the network and provide smart setup wizard program, so it greatly reduces users' effort when setting up the system.

The NVR-3250 is suitable to fit in various network environments. Besides for small scale applications in retail stores and SMB, the NVR-3250 offers 4 SATA HDD supporting RAID 0 / 1 / 5 / 10 function and able to be applied in large scale surveillance such as bank, enterprises, transportation, campus and etc.

* The full version of CMS software (CMS-M1024) can be purchased additionally, that shall help to manage up to 1024-ch of IP Camera with PLANET NVR series product.
