

MultiPrinter

780 / 785 / 787

The REINER MultiPrinter family 780/785/787 proves it's worth daily with many administration tasks: security checking, incoming mail, accounting and control of documentation. MultiPrinters are used in industry, health services, local government and banks. Their efficiency is also valued in scientific and photo labs, hospitals, print shops and an endless variety of other organisations.

The MultiPrinter family lets you select from five flexible imprint combinations: Date, Number, Date+ Number, Date+Time and Date+Time+Number!

Multi-purpose Electronic Stamps with selectable printing functions

The MultiPrinter family

For selectable printing functions

Three models for most different requirements:

MultiPrinter 780

- compact design, simple adjustment by keyboard and LC-display
- Easy positioning of imprint due to foil cut out
- Triggering by pressure on the feed-plate and/or built-in adjustable trip-switch
- Numbering with repetition 0x – 99x (forward- and backward counting), fully automatic dater, various print options, time, automatic summer – winter change, upside down imprint possible
- 39 memorized common print options to choose from, pre-texts in 17 West- and East-European languages
- Print styles from condensed to large (16 up to 35 characters per line). Print width max. 60 mm

MultiPrinter 785

as mod. 780 + additional features

- **ChipCard** for individually created imprint, second printline with your own text, operator's identification, security features
- **Serial interface** for PC or REINER Controller Unit
- **Radio controlled clock**, signal receiving depends on distance to transmitter (Frankfurt/M), on environmental conditions where stamp is located, and on national standards
- **Controller Unit** (extra) for easy and fast entry of random data

MultiPrinter 787

as mod. 785, additionally with

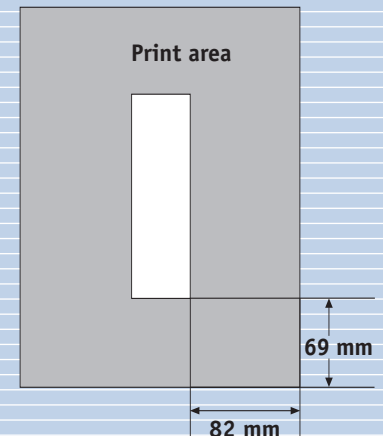

- semi automatically line feed for comfortable 2-lines printing

Technical data

Radio interference suppression, GS-approved, CE-conform	
Mains supply:	230 V ± 10 %, 50 Hz or 115 V ± 10 %, 60 Hz
System of printing:	dot-matrix-printhead
Printhead controlling:	micro-processor
Inking:	ribbon cassette for replacement, black or red
Cover:	light grey
Feedplate:	blue
Dimensions	
L x W x H:	152 x 177 x 158 mm
Weight:	approx. 2.5 kg

Print area

DIN A 4
